## Application

---

Application for 2019 / 2020 school year are open till July 15th.

The Master of Science Digital mock-up and 3D visualization of the Management of 3D Interactive Technologies program is a two-year graduate program from Arts et Métiers ParisTech.

### Application to the 1st year program

To apply, you should be graduated either with a Bachelor degree linked to the field of virtual reality or an equivalent from a university whose diploma is acknowledged by Arts et Métiers ParisTech studies committee. As most of the courses are taught in French, a minimum of proficiency in French is recommended (B1 at least).

### Application to the 2nd year program

To apply, you should be graduated either with an MSc. degree linked to the field of virtual reality or an equivalent from a university whose diploma is acknowledged by Arts et Métiers ParisTech studies committee. As most of the courses are taught in French, a minimum of proficiency in French is recommended (B1 at least).

### For both years

Admission is granted upon an interview with the applicant, based on the application file filled and returned with all the required documents.

[Download the application file \(in French\) >](#)

Once admission is granted, please proceed immediately to the application of a visa to enter France, as it may take time.

*Tuition fees:* 254€ for the program + 211€ for health insurance (in 2014)

During the 6 months internship of the 2nd year program, the student will be paid around 554€ per month.
